HEALTH STATUS

Drenching: The rams were drenched pre-sale with Paramectin. It is recommended that you drench all stock introduced to your property.

Vaccinations: All rams fully vaccinated with GlanEry (7 in 1 + B12)
Scabigard used at tailing.
Last GlanEry booster given on 11th September.

SHEARING: Shorn on 12th July
The property is lice free.

OVINE BRUCELLOSIS: Accredited since foundation of the stud in 1973.
Accreditation no.373

OVINE JOHNE'S DISEASE: MN3-V or 10 points certificate no. SO16V
All the rams are OJD vaccinated.
Gudair vaccination commenced in 2006.

AuctionsPlus®

This year's Sale will be interfaced with AuctionsPlus
Please note that all new registered AuctionsPlus buyers are required to complete the Buyer Induction Training prior to bidding. AuctionsPlus recommends that all intending bidders have completed their registration and training 48 hours prior to the auction.

Welcome to our 30th annual on property ram sale.

We are excited to present our team of 160 rams for your selection, **the largest offering of $uperBorder$ in Australia**.

This year we are celebrating the **50th anniversary** of the commencement of Deepwater Border Leicester Stud. The stud was originally started as a hobby by Judy when a teenager, to supply the ram requirements for her family's business. Over the next few years Judy developed an enduring love for the breed. After our marriage we decided that to continue with Border Leicesters we had to grow the stud to become a business, purchasing better sires and breeding larger numbers for better selection. With our aim of breeding better Borders we have concentrated on improving the stud using LambPlan since 1993 as a tool for genetic improvement. We became founding members of the $uperBorder$ group and have pursued fertility, growth, milking and carcase traits as well as visual selection for length, size, body structure and wool.

Who could have guessed that from the humble beginnings of registering six ewes and a ram that our family would grow the stud to a breeding nucleus of 600 ewes, distributing rams Australia wide.

As it is our 50th anniversary, in appreciation of the wonderful assistance given to our family over the past few years, we have decided to donate the proceeds of lot 50 to the RFDS.

Please check the ASBVs and indexes on the percentile report in this catalogue to help benchmark your selection of rams. The 50th. Percentile index means that 2022 drop $uperBorder$ must have an index over **118.85**.

All the rams catalogued are $uperBorder$ and above average in the BLX index.

Auctions Plus will once again be interfaced with the sale. If you are unable to attend, video and photos of the rams will be available online.

Lamb and sheep prices have eased but by 2027 lamb prices are predicted to reach $10 per kilo according to Global Agritrends managing director Simon Quilty and Nutrien and Mercardo market analyst Robert Herrmann (Stock and Land, 30th Aug. 2023)

Now is the time to invest in Deepwater genetics with confidence, preparing for the future!

We are proud of the success of our clients at Naracoorte and Edenhope Off-shears Sales.

We appreciate your support and look forward to seeing you at the sale.

Judy, John, Jackson, Josh, Claire & Harvey

John: 0428 642 065 Josh: 0407 642 565 Email: jdowdy@rams4ewe.com.au

Stud rams will be found among those catalogued. A minimum price of $3,000 applies for rams to be registered.

SuperBorders is the brand name for Border Leicester Rams that are of high genetic merit for a first cross production system. The official SuperBorder yellow ear tags allow SuperBorder rams to be easily identified.

To qualify as a SuperBorder a Border Leicester ram must be above the 50th percentile for the breed based on the BLX index {Border Leicester Cross Index). The 50th percentile index value is calculated based on the 15th of August LAMBPLAN run each year. It is used to determine SuperBorder rams for that selling season. The BLX Index has been developed for production systems using Border Leicester sires crossed to Merino dams to produce first cross progeny. BLX balances maintaining mature size with significant improvements in early growth and reproduction.

A higher BLX index targets animals that are more profitable in this production system.

Not all rams sold by SuperBorder members are necessarily SuperBorder quality, but are bred by committed, registered breeders striving for genetic gain. SuperBorder rams must be structurally sound and of good breed type.

The SuperBorders group is made up of a number of studs across 5 states who work together in meeting market requirements for objectively measured maternal genetics in the Australian Lamb Industry.

SuperBorders members are industry leaders with longstanding involvement in research, trials and industry resource flocks.

First cross lambs sired by 100% SuperBorder rams may be sold as ‘Bred from SuperBorders’. Special yellow pen cards and SuperBorders ear tags are available to identify these animals when sold in physical sales. Virtual yellow sale cards are also available for SuperBorders progeny sold on on line sale platforms. Please speak with us if you would like either of these marketing materials.

Catalogue Abbreviations and Australian Sheep Breeding Values (ASBVs) explained

ID: Ear tag identification. Further information on each ram is available from our database if the tag number is quoted or from www.sheepgenetics.org.au/lambplan/

SIRE: Stud sire of ram (See table for full sire I.D). If you are marketing your first cross ewes you might select rams from the same sire for a more even line of lambs.

DOB: Date of birth of each ram in 2022. All the rams have been run together and size differences may be due to age differences or being raised as a multiple or single lamb.

BT: Birth type.

BWT: (Birth Weight) Estimates the genetic difference in weight at birth in kg. Our lambs are weighed at birth. Too large a lamb may cause lambing problem or too small, low survival rates.

MWWT: (Maternal Weaning Weight) Estimates the dam's milk production and mothering ability at 100 days (weaning) in kg.

WWT: (Weaning Weight in kg) Estimates the genetic difference in growth at 100 days in kg.

PWWT: (Post Weaning Weight in kg) Estimates the genetic difference in growth at 225 days in kg.

PFAT: (Post Weaning Fat depth in mm) Estimates the genetic difference in fat depth. All the rams were scanned at post weaning. After a series of difficult seasons, most of our clients like their ewes to carry some fat, using leaner terminal sires to produce ideal second-cross lambs. However, those wishing to grow out first-cross wether lambs to heavy weights may wish to select leaner rams.

PEMD: (Post Weaning Eye Muscle Depth in mm) Estimates the genetic difference in eye muscle.

YGFW: (Yearling Greasy Fleece Weight) Demonstrates the difference in fleece weight between the rams when they were shorn during the first week in August.

MICRON: The raw data (not a breeding value) Micron test taken from side samples prior to shearing.

PSC: (Post Weaning Scrotal Circumference). Rams with higher scrotal circumference at an early age will, on average, sire daughters that are more fertile. Especially relevant for breeders seeking to join first cross ewe lambs.

WR: This new trait replaces the NLW ASBV and measures reproductive performance. Weaning Rate measures the number of additional lambs weaned per ewe joined. Weaning rate combines the traits of conception, litter size and ewe rearing ability into a single ASBV. This is new for 2022 and has caused changes in BLX index so please check the recent percentile table to help with your ram selection.

INDEX: The BLX index figures are from the 15/08/23 run in Lambplan. All the rams offered are above the average index of 118.85 as required by the $uperBorder$ group this year.

ACC: (Accuracy) This shows the percentage of accuracy of each ASBV. Despite intensive and accurate data collection, young animals will only achieve higher degrees of accuracy when they have progeny tested and recorded in Lambplan.

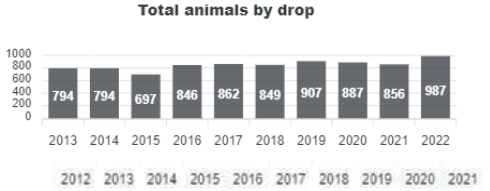
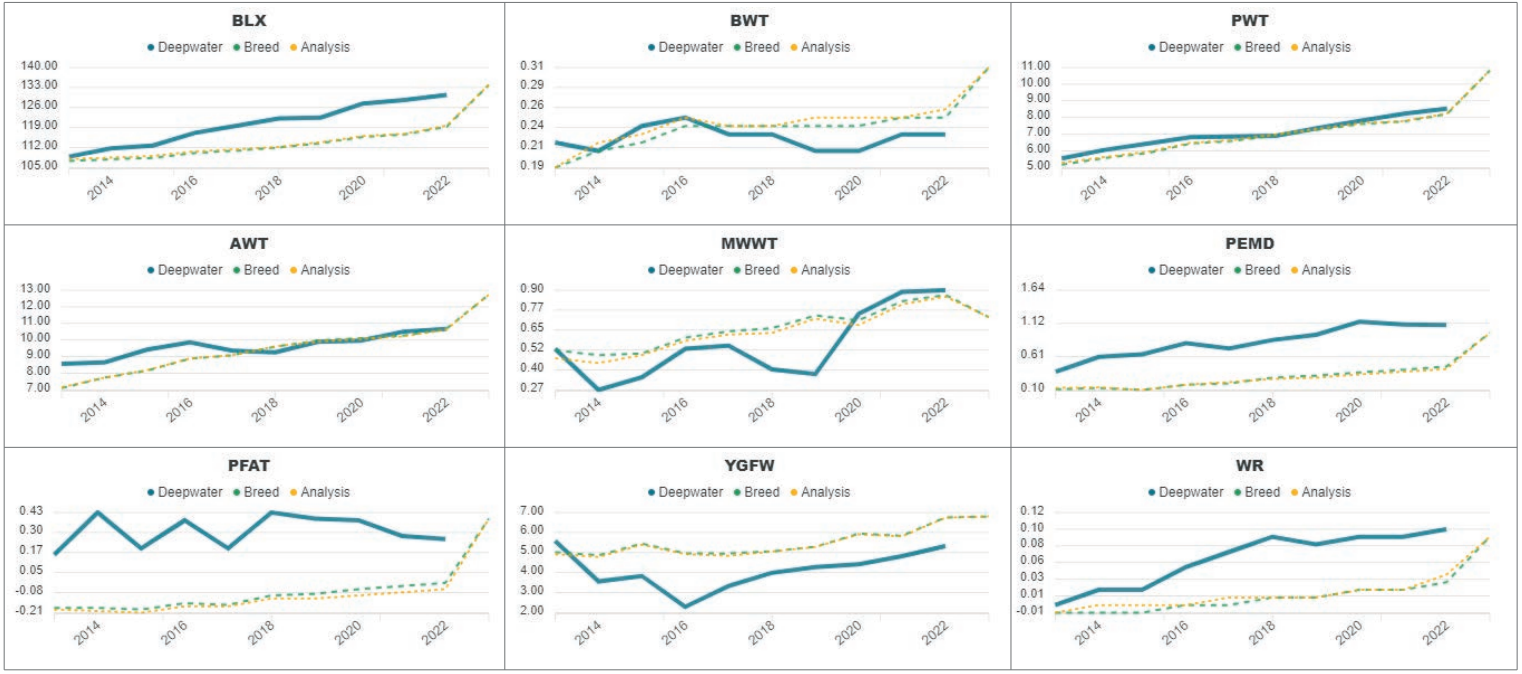
Report: Genetic Trends
Analysis: FIRST CROSS SIRE BREEDS
Analysis date: 15/09/2023
Flock code: 023626
Flock name: DEEPWATER





Reports are prepared using data supplied by breeders and/or accredited operators. We cannot guarantee the accuracy of this data. ASBV's are designed to estimate genetic merit of animals from the data supplied.
The reports are provided to assist breeders but no liability is accepted for the outcome resulting from the use of this information.

MANAGEMENT OF YOUR NEW RAM

The rams presented have been grown out on spring pasture to be in good working condition. Each ram has recently been drenched and vaccinated. Future management, especially in the next year will influence their productive life in your breeding program. Border Leicester rams are usually younger than other breeds of rams during their first joining due to being spring dropped.

We wish you every success with your purchase and suggest:

- Place new rams in a secure paddock away from older rams and unjoined females until mating.
  If absolutely necessary to introduce new rams to other rams before mating, try to lessen the risk of injury by confining the group in a small pen, eg.catching pen. Leave for 12-24 hours until more settled before releasing.
- Be aware that Ovine Brucellosis can be transmitted to rams from recently joined females as well as sexually active males.
- Injuries can lead to infection and require prompt teatment with antibiotics (especially lameness.)
- In the interval before mating feed your rams well. Remember semen is manufactured six weeks prior to use.
  If you are able to supplement your rams' diet with lupins it will improve semen quality.
- Your rams will perform better if they have a short fleece.
- Don't overwork rams in their first season. Preferably put them with older or mixed age ewes.
- After use treat them well, they are your investment for future years. Give regular drenches, 6 in 1 vaccinations, adequate nutrition and regular physical examinations to help ensure a long productive life.

Deepwater stud guarantees that our rams will successfully complete their first breeding season so if you feel a ram has failed to do this please contact us to discuss the matter as soon as possible.
(conditions apply)

If you would like any further advice, please feel free to contact us at any time on 0428 642 065.

NATIONAL SHEEP HEALTH DECLARATION

May 2022

Property Identification Code (PIC) of this property
This MUST be the PIC of the property that the stock is being moved from

S	A	1	7	2	8	1	4

Attached to accompanying NVD/Waybill No.

2	8	7	3	9	6	1	8

SECTION A – Biosecurity Information

1. All consigned sheep are from a Livestock Production Assurance (LPA) accredited property?* Y ☑ N ☐

2. The number of different sources of sheep that have been **introduced** onto the consignment property in the last 5 years is:
   0 (closed flock) ☐ 1-5 ☐ 6+ ☐ Rams Only ☑

SECTION B – Animal Health Information

3. All consigned sheep are from a flock that is free of **virulent footrot?*** Y ☑ N ☐

4. All consigned sheep are from a flock that is free of benign footrot or scald?* Y ☑ N ☐
   If (N) please provide further information below

5. All consigned sheep are from a flock that is free of **lice?*** Y ☑ N ☐

6. All consigned sheep are from a flock in an **ovine brucellosis** accreditation scheme? Y ☑ N ☐
   If Yes, Flock Accreditation No. (except Qld) 373 Expiry Date 30/2/25

7. All consigned sheep are Johne's disease (JD) Approved Vaccinates?* Y ☑ N ☐
   If Yes, I have been continuously vaccinating all retained lambs in the consignment flock against JD for 15 years. *(Vendor-bred sheep only)*

8. All consigned sheep are from a SheepMAP flock?* Y ☑ N ☐
   If yes, Status MN3V 10points. Year commenced 1994 Certificate Number SO16V

See explanatory notes on back page for further information

9. All consigned sheep are from a flock with a negative test for JD?* Y ☑ N ☐
   If Yes, which test? Blood test Date of test / /

10. Any other JD management practices carried out on the property?
    Closed Flock

11. Any other relevant health information

SECTION C – Treatment Information of Consigned Sheep

Treatment type	Product	Date of last treatment
External Parasite Treatment	Coopers Blowfly & lice.	13/7/23
Internal Parasite Treatment	Paramectin	11/9/23
Other treatments		
Vaccination (other than JD)	Glanvac 7in1 B12	11/9/23

Created with Tiny Scanner

Declaration (see explanatory notes for further information)

I Josh Dowdy 38 Moolyella rd
(Full name)

Binnum
(Address) (Town/suburb) (State) (Postcode)

Tel. No. ( ) Email joshdowdy@icloud.com

declare that, I am the owner and/or person responsible for the husbandry of the sheep in this consignment and all the information on this Sheep Health Declaration is true and correct:

Signature Dowdy Date 6/10/23

Producers are advised to retain appropriate records to support this declaration. Persons making false statements may be liable under fair trading and other relevant state legislation.

NATIONAL VENDOR DECLARATION (SHEEP AND LAMBS) AND WAYBILL

S0720 | 28739618

Part A To be completed by the owner or person who is responsible for the husbandry of the sheep or lambs.

Owner of sheep or lambs: JD & JK Dowdy (FULL TRADING NAME)

Property/place where the journey commenced: Moolyella rd (ROAD ADDRESS) Binnum. (TOWN/SUBURB) (STATE) (ADDRESS CONTINUED)

Property Identification Code (PIC) of this property
This MUST be the PIC of the property that the stock is being moved from: SA172814

Description of sheep or lambs

Number	Year born (DROP)	Description (BREED, SEX & TYPE E.G. CROSS-BRED, WETH(ER, LAMB)	Month of shearing	PIC or Brand on Ear Tags (IF DIFFERENT TO PIC SHOWN ABOVE)	Earmarks (IF PRESENT OR REQUIRED)
160	2022	Rams.	Jun		
160	**Total**	Use the Attachment Forms for consignments that require more lines to describe the stock. (See Explanatory Notes)			

A. Have PICs on all of the NLIS tags only on sheep in this consignment been listed in the Description table above (other than the PIC printed on this NVD)? – Yes ☑ OR

B. Have all sheep in this consignment been tagged with an NLIS tag with the PIC printed on this NVD or the associated WA brand as listed in the description table above – Yes ☐ AND/OR

Number of electronic NLIS devices in this consignment:

Hours off feed and water before transporting: 12 hrs

Consigned to: Southern Australian Livestock (NAME OF PERSON OR BUSINESS) (ADDRESS) (TOWN/SUBURB) (STATE)

Destination (if different) of sheep or lambs: (LOCATION ADDRESS)

Destination PIC (REQ: WA & TAS):

Details of other statutory documents relating to this movement e.g. health statement: (DOCUMENT TYPE) (NUMBER) (OFFICE OF ISSUE) (EXPIRY DATE) /20

1. Have these sheep or lambs been raised consistent with the rules of an independently audited QA program on the property the PIC of which is shown above?
   Yes ☐ No ☑ If Yes, give details: (NAME OF PROGRAM) (ACCREDITATION OR LICENSE NO.)
2. Have all the sheep or lambs in this consignment been treated with a Scabby Mouth Vaccination either at marking or at least 14 days prior to their presentation for sale?
   Yes ☑ No ☐
3. Were all of these sheep or lambs bred by the owner or vendor?
   Yes ☑ No ☐ If No, how long ago were the sheep or lambs obtained or purchased?
   (If purchased at different times, tick the box corresponding to the time of the most recent purchase.)
   A. Less than 2 months ☐ B. 2-6 months ☐ C. 6-12 months ☐ D. more than 12 months ☐
4. Are any of the sheep or lambs in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) as set by APVMA or SAFEMEAT, following treatment with any veterinary drug or chemical?
   Yes ☐ No ☑ If Yes, give details: (Record additional details in question 7)
   (CHEMICAL PRODUCT) (DATE APPLIED) /20 (WHP) (ESI (IF SET))
5. In the past 60 days, have any of the sheep or lambs in this consignment consumed any material that was still within a withholding period when harvested, collected or first grazed?
   Yes ☐ No ☑ If Yes, give details:
   (CHEMICAL PRODUCT) (DATE APPLIED) /20 (GRAZING WHP) (DATE FIRST FED/GRAZED) /20 (DATE FEEDING/GRAZING CEASED) /20
6. Have the sheep or lambs in this consignment ever in their lives been fed feed containing animal fats? (See Explanatory Notes) Saudi Russian eligable.
   Yes ☐ No ☑
7. Please include any additional information below
   eg: vaccination programs, animal health certification, additional declarations, etc.

Agriculture is woven through
OUR DNA

Our people have a deep knowledge of agriculture right across the supply chain, and with many being from the land, they don't just understand farming, they live and breathe it.
